**Subject:** MAML Status Update

Currently, lodging will not be available in Beaumont/Port Arthur until Wednesday (at the earliest). This will not allow the MAML air monitoring/staff to mobilize to the area due to lodging constraints. The MAML was scheduled to demobilize on Friday morning. The narrow window to perform monitoring by the MAML doesn't seem to justify the mobilization of this resource. The TAGA is available from Houston to respond to any air monitoring concerns.
